

Mapping profiles of cognition, motivation and attention in young people with social, emotional and mental health needs

What is it about?

We are interested in understanding how young people with social, emotional and mental health (SEMH) needs make sense of social situations.

Who can take part?

Do you live in the UK?
Is your child aged 10-16?
Are they able to complete some fun activities on the computer?

If you answered yes, great news!
You and your child can take part!

What's involved?

Step 1: Parents will complete some questionnaires (30 minutes)

Step 2: Young people will complete activities on the computer. These can be done in one or two sessions (30 minutes each).

Your child will receive a £15 Amazon voucher for completing the study!

How can you join?

To sign up for the study, just click on the link below:
